HD Chemicals – Valvoline Professional Series™ HD

Version: VPS HD3/004

Valvoline™ VPS HD Diesel System Complete

VPS HD Diesel System Complete effectively cleans and restores the complete fuel system of the heavy-duty diesel engine, restoring the engine back to its original power and performance.

VPS HD Diesel System Complete reduces downtime for maintenance by keeping the engine clean, reducing wear, and helping the engine run smoother and more efficiently.

Applications

VPS HD Diesel System Complete cleans and restores the complete fuel system of the heavy-duty diesel engine, restoring the engine back to its original power and performance, without the need for a higher cetane number fuel.

The product emulsifies the condensation water present in the fuel tank and protects against rust and corrosion, while the flow improver guarantees a smooth start-up at cold temperatures.

The chemical composition of the product stabilizes the fuel and prevents fuel aging and bacterial contamination.

Easy to use:

Add VPS HD Diesel System Complete to the fuel tank before refilling. The content of the bottle is enough for 1000 liters of fuel. For special problems, like blocked injectors, black smoke, poor starting etc. you may use a higher concentration, i.e. one bottle on 300 liters of fuel. For preventive maintenance, use one bottle per tank at every service interval.

Features and Benefits

Reduces downtime and maintenance costs

VPS HD Diesel System Complete reduces downtime for maintenance by keeping the engine clean, reducing wear, and helping the engine run smoother and more efficiently.

Superior cleaning

VPS HD Diesel System Complete removes deposits, cleans injectors and restores spray patterns. Additionally reduces emissions of soot particles caused by deposits and incomplete combustion. Helps maintain cold start-up properties.

Universal application

Maximizes power and performance of all heavy-duty diesel engines

Deposit problem solver

For special problems, like blocked injectors, black smoke, poor starting etc. you may use a higher concentration, i.e. one bottle on 300 litres of fuel. For preventive maintenance, use 1 bottle per tank at every service interval.

Lubricates injectors and fuel pumps

Lubricates injectors and fuel pumps if running on low-sulphur diesel

Health and Safety

This product is not likely to present any significant health or safety hazards when used correctly in the right application. A Material and Safety Data Sheet (MSDS) is available on request via your local sales office or via the internet @ <http://msds.ashland.com>

Protect the Environment

Take used chemicals to an authorized collection point. Do not discharge into drains, soil or water.

Typical Properties

Typical property characteristics are based on current production. Whilst future production will conform to Valvoline specifications, variations in these characteristics may occur.

VPS HD Diesel System Complete	
Appearance	Clear liquid
Colour	Clear
Flashpoint PMCC	75°C.
Specific Gravity @ 15°C.	0.905
Storage	Cool & dry
